

THE INDIAN HEALTH SERVICE

Howard Hays, MD, MSPH

RPMS Program Manager, IHS OIT

Superior Health Information Management
Now and for the Future

VistA Community Meeting

January 12, 2008

Update Topics

- EHR v1.1 and Patch 1
- CCHIT Certification
- GUI Scheduling
- RPMS Well Child Module
- RPMS Obstetrical Care Module
- iCare Updates

EHR v1.1

- Released October 2007
- Content presented at last conference
 - Medication management, GUI configuration, education enhancements, info button
- Patch 1 pending
 - Minor enhancements & bug fixes
- Next version – CCHIT-related enhancements

RPMS CCHIT Certification

- OMB Scorecard requirement for RPMS to be certified by CCHIT
- Certifying under 2007 ambulatory criteria
 - Application due end March 2008, certification by June 30
- Numerous enhancements developed
- Principal pending enhancement – e-Prescribing

Obstetrical Care Module (OCM)

- Data collection and entry for:
 - First Prenatal Visit
 - Interim Prenatal Visits
 - Postpartum Visit
- Over 600 data points
- Flowchart presentation where appropriate
- Data carries over to future pregnancies
- Multiple GUI components planned
- Flowchart infrastructure extensible to other types of data
