Lab Interface

Background

- **Part of VOE Beta Testing Program**
- **Tasked with development of an interface to external labs**
- **Developed with InterPath Labs in OR**
- **Presently working with LabCorp**

Description

- **HL-7 Messaging**
- **Mirth *translator* box**
- **Interface is bi-directional**

Key Points

- **Reference Lab capability**
- **80%-90% of effort is lab package configuration**
- **Mirth has a GUI and easy to configure**
- **Open source**
- **Point of Care may be a solution**

1000 Points of Failure

- **Network Configuration**
- **Clinics may not be able to support it**
- **Lab may not be capable of bi-directional interfacing**
 - **No lab in Hawaii is bi-directional**

Summary
